2008 Bald Eagle
Commemorative Coin Program

The Bald Eagle Commemorative Coin Program

America's strength, freedom, and democracy are all symbolized in the image of a Bald Eagle soaring through our spacious skies. The Bald Eagle's proud bearing has adorned the Great Seal of the United States since 1782, representing to the world the American values of courage, spirit, and equality.

Despite Benjamin Franklin's suggestion that the wild turkey become our national symbol, the Second Continental Congress chose the Bald Eagle. Since those early days of the Republic, the Bald Eagle has served as an icon for the ideals that are held precious by our Nation and it continues to inspire patriotism throughout the land.

Unique to North America, Bald Eagles are found in every state of the Union except Hawaii, and are especially abundant in Alaska.

This national treasure came perilously close to extinction. But years of legal protection, hard work, and vigilance have joined to ensure its survival.

Once a rare sight, the Bald Eagle population is now so robust that it no longer needs the protection of the Endangered Species Act, though other protections are still in place.

Public Law 108-486 authorizes the United States Mint to mint and issue these three historic coins that honor the recovery of the Bald Eagle species, mark the 35th anniversary of the Endangered Species Act of 1973, the removal of the Bald Eagle from the Endangered Species List, and celebrate the Bald Eagle's important role as our national emblem.

Join the United States Mint in commemorating the majesty of our national symbol and its remarkable restoration to our Nation's lands, waterways, and skies.

The \$5 gold coin obverse features two young eaglets resting on a branch in their natural habitat. Bald Eagles are dark brown when they leave the nest at about 12 weeks of age, and do not get the distinctive white head and tail feathers until their fourth or fifth year. The reverse depicts an image of the current Great Seal of the United States.

The obverse of the silver dollar coin portrays a mature Bald Eagle soaring in flight, with its majestic wings spread. The reverse of the silver dollar coin features the original rendition of the Great Seal of the United States that was in use from 1792 to 1841.

The half-dollar clad coin obverse depicts two baby eaglets at about two to three days in age, settled in a nest surrounding an unhatched egg. The reverse features the famous eagle "Challenger" with the American flag in the background. Challenger is an ambassador for his species, performing free-flight demonstrations around the country while raising public awareness of the need to protect eagles and their habitats.

Surcharges from the sale of these commemorative coins are authorized to be paid to the American Eagle Foundation of Tennessee to further its works.

2008 Bald Eagle Commemorative Coin Program

The Bald Eagle Coin and Medal Set features an uncirculated Bald Eagle Silver Dollar and a bronze Bald Eagle Medal from the National Wildlife Refuge System Centennial Medals Series.

This informative set highlights the journey of the Bald Eagle from near extinction to its recent removal from the Endangered Species List and its important role as our national emblem. This product is limited to 50,000 units.

Mintage Limit	100,000 (across all product options)	500,000 (across all product options)	750,000 (across all product options)

Although the Bald Eagle was almost lost from our skies forever, public and private forces united to ensure our national symbol's survival. Today, the danger of extinction has passed. With great celebration, the Bald Eagle was removed from the Endangered Species List in 2007. Between 50,000 and 70,000 Bald Eagles call Alaska home, with an additional 10,000 nesting pairs found in the 48 lower states.

The Bald Eagle Young Collector's Set highlights the uncirculated Bald Eagle Half-Dollar Coin. This fun and educational package is geared toward the children in your life and brings back the popular "Mint Kids" on a new adventure, learning about the recovery and restoration of our national emblem.

Orders for this product will be accepted from January 15, 2008, through April 15, 2008. We will produce only the quantity of products ordered within this timeframe.
